3

1. Comment. With a total of 548,500 tons crude oil imports from Austria in 1954 increased by about 100,000 tons over those reported for 1953. 25X1
2. Comment. The information on crude oil shipments from Hungary and Rumania is incomplete. However, the totals reported are higher than those reported for 1953 during which 12,500 tons arrived from Hungary and 2,500 tons from Rumania. 25X1
3. Comment. The 1954 import quota was fixed at 603,000 tons. According to the present report, a total of 572,700 tons were imported. Since not all imports from Hungary and Rumania were recorded, the quota was possibly fulfilled. 25X1
